Clinical School Academic Women’s Forum

The Academic Women’s Forum (AWF) at the School of Clinical Medicine provides the opportunity for senior and trainee academic women to meet, share advice, talk about their experiences and develop ways to support each other. We hold career and networking events throughout the year on a variety of topics such as ‘Confident Ways of Working’ and ‘Furthering Your Career’.

**For PIs/Honorary Consultants:**
We hold regular get-togethers to meet colleagues, share advice and experience, and develop ways to support both senior and junior academic women

**For postdocs and trainees:**
- If you have questions about career development
- If you would like advice about research outside of your supervisory relationships
- If you need a mentor
- If you just want someone to talk to about your career, your work, balancing the different pressures...

...then the Clinical School’s senior academic women will be happy to hear from you.
